

Come Join Us!

Business Solutions to Climate Change & Sustainability - A Roundtable Discussion

Join famed arctic explorer **Will Steger** and local business owners in a discussion on the impacts of climate change and how businesses are part of the sustainability solution. For over 40 years, Will has both traveled the Polar Regions witnessing first-hand the impacts of our changing climate and been engaged in conversations on market-based solutions that move us forward. Come learn and discuss the importance of local businesses, what opportunities there are to influence our future, and how businesses are stepping up to the challenge.

Also, join three Bozeman business leaders Wendy Weaver (Sanderson Stewart, Bozeman Sustainability Group), Dennis Steinhauer (Archer Construction), and Pete Strom (PowerHouse Integrated Conservation Systems) who will provide insights from their recent trip to Washington DC.

Wednesday Feb 10, 2010, Noon – 1:15 pm
Bozeman Public Library - Large meeting room

Bring your own lunch, light snacks provided.

RSVP Appreciated: Wendy Weaver
